

Fashion conscience at a very early age while mesmerized with the pages of Vogue, Trina always had visions of working in the world of fashion. Styling was a prelude into fashions many facades of business. With adoration and inspiration deriving from the likes of Coco Chanel and Grace Coddington, Trina is continually growing and fascinated by the different aspects of style.

Cultivating an impressive clientele and resume, Trina's broad scope of work encompasses everything from editorial, celebrity, as well as film and television. Her creative vision runs the gamut from feminine to masculine and from subway graffiti to runway couture. Trina's versatility and talent for merging classic with edge is what sets her apart from the rest. Trina believes image and style are more than mere words they are a way of life. Her way of life!
